Mr. Kim Carstensen
Director General
Forest Stewardship Council
Bonn, Germany

RE: Public Acknowledgement of FSC Baseline Results

Dear Mr. Carstensen,

APRIL Group sincerely thanks the Forest Stewardship Council for its support to the ongoing process that seeks to end APRIL's disassociation from FSC.

On behalf of the management and shareholders, APRIL Group expresses its acknowledgment of the impact of its operations since 1993, including the associated potential environmental and social harms, in Riau, Indonesia where it operates, as identified and estimated through the baseline assessment.

APRIL Group is committed to fully and sincerely engage in the process of remediation and ending disassociation with FSC. We will support the process that FSC will establish for the ensuing stages and commit the necessary resources across our organization to respond expeditiously and objectively to its requirements. We also acknowledge the valuable role and inputs of the stakeholders in this process and will maintain an open and constructive approach to these.

APRIL recognizes that trust-building especially with stakeholders is an ongoing process and APRIL seeks to improve and/or strengthen its relationships with stakeholders through increased transparency, constructive engagement and further progress on the delivery of its commitments.

APRIL reaffirms its commitment to fully engage and cooperate with FSC and relevant stakeholders in a constructive and robust process of ending APRIL's disassociation.

Sincerely,

A handwritten signature in black ink, appearing to read "Praveen Singhavi", with a stylized flourish at the end.

Praveen Singhavi
President
APRIL Group
